

Car Pooling

Car pooling is a great way to “go green.”

Carpooling just once a week reduces emissions by about
20%

Car pool participants help improve the region’s air quality
by removing over 1.5 million pounds of air
pollution annually

The Miami Valley Regional Planning Commission
offers a rideshare program to help pair ride share
participants together!

Are you carpooling to work?

Enter your carpool group into our drawing
to win a \$50 gas gift card!

Interested in carpooling to work but need
some help? Post your request for a carpool
buddy on the kitchen bulletin board or visit
<http://www.miamivalleyrideshare.org/>
